Mabani Steel is an Al Rajhi Investment Group Company, one of the 10 largest business groups in the Gulf Cooperation Council "GCC" Countries. Mabani Steel's factory in Ras Al Khaimah, UAE has been built & equipped from the start to have a monthly production capacity of 6000 metric tons (MT) of PEB and 2000 MT of HRSS and Mabani Steel is quickly being recognized, by Contractors & Consultants who specialize in steel buildings, as the new benchmark in PEB.

Mabani Steel leads other GCC based manufacturers in the following performance matrix:

- **Fastest response to requests for quotation (RFQ).** We are the only PEB manufacturer with a 15 persons dedicated estimating department.
- **100% Compliance with the latest USA design & manufacturing codes.** We are 100% compliant. Our engineers are experienced with the loading of data of your region (cyclonic wind speed, seismic loading & rainfall intensity)
- **Blast cleaning of all painted steel members.** We blast all painted steel components to Swedish Standards SA 2.0 as minimum, and to SA 2.5 when specified.
- **Erection of our products.** We produce the clearest erection drawings to ensure that your nominated erector is guided throughout the entire erection process.
- **Transparency in all our dealings.** Our transparency is reflected in our comprehensive proposal offers & proposal drawings, change order pricing, production & shipment schedules and post erection quality check of our products.

Contact: Mr. Mujahid Siddiqui

Mammut Building Systems was established in 1997, in response to the increasing global demand for Quality Pre-Engineered and Structural Steel Buildings. Our aim from day one was to produce steel buildings of the highest standards. To reach that aim we spared no expense to set up a factory with the best and most sophisticated machines and engineering software money can buy. The biggest asset of our company, however, is our team and teamwork. Each member of our team is a professional dedicated to provide our customer with the best of services. We all know and believe that our future depends on sustained customer satisfaction.

Mammut Building Systems has been able to take on many prestigious jobs in and around the UAE, for which many recommendation letters were awarded to us by the clients, consultants, local and multinational contractors. We have a total production capacity of 9000 tons of steel buildings per month. Our workforce consists of 160 professionals having a combined experience of over 100 years in the field of Pre Engineered and Structural Steel Buildings.

### Marina Industries

Contact: Mr. Hameed Shera

Since 1993 Marina Industries is committed in providing world standards of processing marble and granite for its international and domestic clients

The company prides itself with its dedicated totally professional team of workers. From the prospecting teams to logistical support and extremely experienced processing operators as well as manual help with out whom no industry is complete

Today after our humble beginnings some 15 years ago with 45000 sq ft processing unit in the busiest industrial area of Karachi another unit of about 8 acres was added in the most upcoming dedicated marble and granite processing zone near Karachi.

Now with the new addition in our chain of processing units we are developing bulk storage of semi finished stone ready for various world markets

We are also extending to add state of the art mosaic and other value added dimension stone finishes for the building industry

Without emphasizing the stone industry is founded on quality raw material for which Marina Industries has a team of Italian and Chinese trained team leaders. An R&D department which gives solutions for better quality stone and prospects for new and unusual, one of a kind variety of different stones

In the same way our various processing units are equipped with the most modern Italian and Chinese processing machines from squaring of blocks to slab cutting and processing as well as multiple blade block cutter's and multiple head tile and slab processing line's

Finally but not the least we boast of our marketing team fulfilling all orders both from the international as well as domestic market

#### Master Thermo Shield

CONSERVE ENERGY WITH POLYURETHANE INSULATION MATERIAL & SAVE UPTO 50% ENERGY BY REDUCING YOUR ELECTRICITY BILLS.

The conservation of energy is the only solution to ever increasing energy costs and its diminishing resources all over the world. In Pakistan, a huge amount of energy is consumed either in heating or cooling our homes and other constructions, which account for a large amount of power consumption.

In addition to that a large amount of energy is wasted due to non-insulation or improper insulation. Master Group of Industries- Makers of Molty Foam and a leader in innovative products development since 1963, has been at the forefront to come up with products that are user benefician, because of there cost effectiveness and also because they adhere to all quality and envirointly sound standard.

Generally packing materials are sold as insulation materials in the market but be cautious, because these materials are simply packing materials.

Only Master THERMOSHIELD provides the most proper insulation for your existing or under construction houses, Industries and cold storages. Master THERMOSHIELD not only enhances your living environment, but also makes walls, ceiling & roof of houses, offices as well as heavy furnace tanks, textile mills & other industries to stay cool in summer & warm in winter. Moreover it also reduces the noise from outside and serene ambience, which makes you comfortable & relaxe.

Master THERMOSHIED uses the same top quality insulation materials in refrigerators, deep freezers, vacume flask, hot pots, water cooler & cold storages, insulated vans & portable cabins all over the world. Recently Master THERMOSHIELD has introduced EXTRUDED POLYSTYRENE INSULATION BOARD (IMPORTED) which is high resistance to water absorption & good mechanical properties. It has predictable performance and high insulating value & is available with and without shiplap edges in different sizes & thickness. It meets BSS, DIN & ASTM specifications.

### Master Enterprise (Pvt) Ltd.

S-30, S.I.T.E., Maripur Road  
Karachi-Pakistan  
Tel: 021-2354723, 2354724 UAN: 111-666-555  
Fax: 92-21-2354747  
E-mail: sajid@khi.master.com.pk  
Web: www.master.com.pk  
Contact: Mr. Sajid Anjum

Born of a new, futuristic thinking and growing with an innovative technology, it all started as a challenge of quality manufacture. Situated in Karachi, the factory covers an area of 16,187.44 sq. Master, employs over three hundred and fifty people and is totally self-contained.

We heralded a revolutionary departure from the conventional concept of cotton filled mattresses which were both expensive and uneasy to sleep on. Our product philosophy has always leaned towards the manufacture of better products, researching new

applications for foam and developing optimized production techniques in all areas.

Master's formulation technology gave birth to new, more economical and healthy sleeping surfaces.

This has led to market leading products designed ergonomically for backache sufferers and health conscious people. And a range of Master Health Care Package. Molty Ortho Health Care Range, BackCare Cushion and Contour Pillow have domestic names for those concerned with their health.

Now, Master is manufacturing the range of Memory products with the quality of international standard. The Memory range includes Master Molty Foam, Master Celeste Memory, Master Foam Asli Foam, Master Memory Comfort Top, Master Molty Memory Comfort Pillow.

### Master OffiSys Private Ltd.

Master House, 54-D.A.C.H.S.,

Master Paints Industries (Pvt) Limited is one of Pakistan's leading Paint Manufacturing organizations. Formed in 1975, the foremost objective of the company was to introduce modern paint technology in Pakistan. Soon after its existence, it acquired a very sound position by attaining considerable market share and soon became one of the leading decorative paint manufacturing company in Pakistan in terms of quality.

Behind this marvelous progress of the company, there are highly qualified personnel who shaped the company into leading organization by virtue of their qualification and experience.

Master Paint's R&D department remains in pursuit of highest standards of quality, innovating and applying the modern technology in decorative paints. Master paints fortunately has a very dynamic team of marketing and production personnel who have been striving to keep the company as the leading one in Pakistan's paint Market. Now the consumers don't hesitate to accept Master Paints as the symbol of full satisfaction.

We are producing all types of decorative paints under following categories:-

#### Oil Based

- Synthetic Enamel
- Gloss Enamel

#### Water Based

- Weather Resistant
- Luxury Plastic Emulsion

- Matt Finish
- Under Coat
- Red
- Varnish
- Mixing Green
- Synthetic Metallic
- Super Emulsion
- Wall Putty
- OxideTexture Finish
- Puteen
- Mixing Silver

On the basis of excellent quality paints and expert staff, we have attained the confidence of several high profile organizations both in public and private sectors, all over the country. Moreover, we have worked and are working on countless projects through our authorized dealers & distributors.

Fax: 92-55-4272127

Contact: Mr. Humayun Adil

#### MASTER --- a rich tradition of creating MASTER PIECES

It all started in 1982 around 24 years back when Master Industries was initially launched as a company manufacturing sanitary fittings. Right from the day concepts were clear with one clear cut target as the ultimate goal -- a well coordinated bath room.

When Master Industries opted to go for 'MASTER' as their brand name as well, this proved a really tough but highly beneficial decision, both for the company and its customers. It was tough to live up to the name. It called upon us to master the art of creating products that deserve to be called masterpieces. We did it, thanks to the brand name 'MASTER' which constantly kept capturing our nerves for designing the ultimate and producing the best. Credit also goes to our valued customers who appreciated our artworks and opted to buy value for their money.

Dedication to our initial commitment of giving a complete bathroom added with the overwhelming reception of the quality in the market has today

brought us to the level of presenting a comprehensive range of Sanitary fittings, Bathroom accessories, World class ceramic tiles & Granite tiles. While spreading our wings, the only factor which has been kept as a constant concern and consideration is the name Master, we had to do everything living upto the name.

While the inspiration coming from our brand name serves as a driving force, the appreciation from our customers as a great source of encouragement to delve deeper in search for still better designs and quality, we have come to the conclusion that our customers really deserve it.

### **Mazyood Giga International Construction Co.**

39/3, Hussaini Housing Society  
Hussaini Coop. Housing Society  
Alamgir Road  
Karachi-Pakistan  
Tel: 021-4131000, 4131004  
Fax: 92-21-4860697  
E-mail: chughtai@mgicc.net  
Contact: Mr. Muhammad Saleem Qadri

The Giga vision is to become one of the top international conglomerates with right action, right partners, right business principles and the right attitude to all clients and employees that nourish the entity. Just like a tree nourishes the entire planet, Giga wishes to enrich the lives of all those who are touched by its presence.

Haji Muhammad Rafiq Giga stepped into his family business of textiles in 1982 which was established by his father Haji Abdul Rahim Giga in 1956. Haji Muhammad Rafiq Giga strategically focused on non-traditional and non-quota regions like Africa for trade in textile, made-ups and machinery.

Under his leadership Mian Akber Trading Corporation has won the Largest Exporter to Non Quota Countries award for the past 17 years.

Haji Muhammad Rafiq Giga believes in challenges. Under his captaincy, the company carved a name in the African market with a unit in Dar-es-Salaam, Tanzania with a workforce of over 5000 that earned the appreciation of the President of Tanzania for contribution to the Tanzanian economy.

In 1994 he ventured into the bullion market by establishing Mazyood Jewellery LLC in UAE. Soon it became one of the leading traders of bullion in the UAE and the subcontinent. The excellent working relationship with Union Bank of Switzerland Warburg, brought Mazyood Jewellery the title of the most active client of the year 2000. Ever enterprising, Haji Rafiq established Al Ghurair Giga Gold Refinery in 2003 at the Dubai Multi Commodity Centre (DMCC) in UAE. The project is a joint venture between the Al Ghurair Group and the Giga Group.

Haji Rafiq then entered the arena of construction and property development and established ventures in Pakistan and UAE. He established joint ventures with EMAAR – one of the largest property developers in the world and the Al Ghurair Group – one of the biggest groups of UAE with businesses all over the world. It's been a great saga of growth and expansion in a short span of time for the Giga group. The incredible achievement have been made through numerous companies that continue to flourish under the vast Giga canopy.

Contact: Mr. Asad Qureshi

RSL Trading being a new company established in 2005 mainly with the ambition to import quality building materials & related products to fulfill the day-to-day growing demand in the construction sector. The market position was keenly observed and a vast gap was found due to the low quality supplies in the area of false ceilings & needed to be filled with high quality products. While focusing on the Ceiling products, RSL intends to provide all the quality products in future in all the areas of construction sector. Since then RSL Trading has given a good exposure to our principal M/s. Jeliang Engineering Co., Ltd. As there sole distributor Pakistan. RSL Trading has now introduced the Aluminum Composite Panel and Grill Ceiling as their core products in Pakistan.

The Jeliang Engineering is a very large concern with its head-office in Taiwan, factories in Taiwan & China

& exports in over fifty countries now including Pakistan. Jeliang is a very well reputed company; manufacturing remarkably high quality products like Gypsum Board (with PVC facing in more than 150 designs & foil back, also having different specifications of thickness), Plaster Board (again in different sizes & thickness), Mineral Fiber (in various designs & thickness), Aluminum Ceiling (in many designs & different thickness specifications) and the metal T-Grids (with strong & thick Main Runner-12', Cross Tee-4' & 2' and Wall Angle-12')

RSL can also provide imported Doors & Windows and in the same time intends to provide imported Wall Tiles & Wooden & Ceramic Floorings. RSL is filling competition and has sustained the quality first service to be supreme in 21st century with reasonable prices and excellent ideas.

RSL wishes to work with various companies, contractors & builders with hand in hand to cooperate altogether to create more magnificent tomorrow.

The Company has successfully diversified into some allied building material products and it has achieved considerable success in marketing DIY (DO IT

YOURSELF) products of a renowned company from U.S.A. namely Laticrete International Inc., which includes Stile Bond, Porcellena Bond, Grout, Grout Admix, Latex 73, Latapoxy SP 100 & Stile Sealer 190. It is also marketing latest designs of High Quality Ceramic and Porcelain Floor Tiles, Sanitary Fittings and Bathroom Accessories under its popular Brand name of STILE in association with International Partners.

The Company has strong dealers and distribution network, spread all over Pakistan and maintains its Sales Offices at Karachi, Lahore, Multan, Faisalabad, Islamabad and Peshawar.

On the other hand company has its own outlets named as THE STILE EMPORIUM. Right now there are three outlets in Karachi and one in Lahore and planning to open more outlets in major metropolitan cities of Pakistan.

Shabbir Tiles has obtained latest version of Certification of Quality Management System under ISO 9001:2000 from Lloyd Quality Assurance. The STCL plant, based in Karachi, incorporates the latest European technologies & techniques to manufacture high gloss tiles that conform to European standards. Enjoying brand leadership and the largest network of dealers and outlets in Pakistan SHABBIR TILES & CERAMICS LTD through a concerted, conscious effort is a professionally managed company today. With Stile as its corporate identity, the company looks to newer areas for growth.

### Shafisons Engineering (Pvt) Ltd.

Shafisons Engineering (Pvt.) Limited (SSEPL) created ripples in the field of Engineering Plastics in year 1994 by launching of brand, "Beta Pipes". The main vision was to serve the nation by providing reliable, economical, environment friendly and quality driven piping systems for water and electrical distribution.

Shafisons Engineering (Pvt.) Limited, a quality conscious company, a self reliance, has the honour to obtain manufacturing license, without any foreign collaboration or technical assistance for

manufacturing of PVC-U pipes. Our product line ranges from PVC-U pressure pipes to PVC-U electrical conduits to PVC-U soil, waste and vent pipes and fittings. In addition, our 'Customer Care' department offers a variety of services including technical support, design proposals and estimates, customized tools and techniques which are to be followed up by regular feedback in order to determine customer satisfaction. Our entire management is committed to the motto of "Service and Quality". The company has been awarded and accredited with various forms of prestigious recognitions along the innovative and successful journey with a mile stone in the form of achievement of "BRANDS OF THE YEAR AWARD 2006-07" on 6th of November, 2007 by the Honourable Prime Minister of Pakistan. Our most important asset is our professional work-force, which has played a pivotal role in turning dreams into realities by sheer hard work, team-working and constant focus on delivering services internally and externally to harness core competences, brand loyalty and customer satisfaction

**SSEPL became the first company to supply PVC-U Pressure Pipe 20" diameter to Engro polymer & Chemical Limited Karachi, Pakistan.**

 Contact: Mr. Dabir Ahmed Khan

Sitara Developers (Pvt) Limited is an entity of the Sitara Group having the following directors:

1. Haji Bashir Ahmed (Chairman)
2. Muhammad Adrees (CEO)

Principal activity of the company is to develop real estate business ventures such as shopping malls,

housing schemes, business centers and other such projects aimed at urban development. One of the main projects of the company is Sitara Mall in the main posh locality of the Faisalabad (near D-Ground). This project is based on the most modern architectural work and state-of-the-art facilities for the benefit and convenience of its occupants, customers and visitors. The project has been designed by M/s Pervaiz Iqbal & Associates, one of the leading architects in the country, and is also being monitored by them. The construction work of the Sitara Mall is in progress at a fast pace. This is one of the very advanced amenities-equipped Mall with a different and new style from the currently operational Malls in the country.

The next proposed mega project of the company is SITARA GARDENS; a residential colony spread over 200 acres of land. The location of this residential colony is environmentally cleaner than the rest of the city with sweet underground water and easily available public transport facility. The colony is being planned on most modern lines with a number of facilities like landscaping & green belts, parks, high schools, mosque, community hall and library, sports club, telephone system, security systems, etc.
